

CLASSEN®

Built to Use and Designed to Last.™

SELF-PROPELLED SEEDERS

With over 35 years of excellence,

Classen® products have been trusted tools of the trade in a wide variety of areas, such as the rental market, residential and commercial landscaping and lawn care.

Classen® **SELF-PROPELLED SEEDERS** are multipurpose machines that make it easy to seed new lawns or overseed existing lawns. Classen turf seeders convert in minutes to a rake with catcher bag or vertical cutter. A single-pin seedbox attachment design allows for quick removal of the hopper when converting the unit. The blades are designed with a cutting

edge on both ends, which doubles the blade life. The handles fold easily for portability and storage.

**HYDRO DRIVE
MAKES IT
EASY TO
OPERATE!**
